

Dear SIG 24 Members,

We hope your autumn is off to a good start, and that you are all looking forward to our meeting in Helsinki in October (26-28).

Today we are writing with a few key updates.

First, please remember to register as soon as possible if you plan to attend the Helsinki meeting, as this will help us finalize planning for the workshops. You can register on the conference website here: <https://www2.helsinki.fi/en/conferences/sig24/registration-and-practical-information>

Additional information about accommodations, keynotes, and the program are also available on the website.

Second, when you register for the meeting, you must select a workshop to join. We have attached a document containing information about each of the three workshops and a template that we ask you to fill out prior to the Helsinki meeting. Each workshop has its own set of readings, and the main reading for Workshop 1 is attached. A description of each workshop can also be found below.

Please let us know if you have any questions ([kelsey.inouye@education.ox.ac.uk](mailto:kelsey.inouye@education.ox.ac.uk)), and we hope to see you there!

Best wishes,  
E, I, S, & K
