The SIG Writing Newsletter. Issue # 1

With 2010, SIG writing intends to re-establish the use of Newsletters to spread information and news better among writing researchers.

This is the first SIG Writing Newsletter for many years.

The SIG writing newsletters will be sent out to members and contributors three times a year.

Each issue will be sent out through the SIG writing mailing list, and will be published on the SIG Writing website.

Links to relevant websites and homepages will always be provided in the Newsletter, so that readers may have easy access to the related information.

The Newsletter will also be sent to Associations, Organizations, Journals and Scholars cited in the Issue.

A list of contributors will be reported for each Newsletter. Contributions are invited from both SIG writing members and international scholars and researchers interested in writing, provided that they are writing related.

You will find a call for contributions for the next Issue on page 4!

The aim of the Newsletters is to update the community of writing researchers on relevant initiatives in the scientific study of writing, including:

- conferences
- calls for papers and research projects
- grants and awards
- ongoing research projects.

For this issue we want to thank David Olson, Virginia Berninger, Amy Li, Gert Rijlaarsdam, Joachim Grabowski, Mark Torrance, Asa Wengelin, David Galbraith for their assistance and contribution.

The SIG Writing
Mission Statement

Invitation to discussion

At our last SIG writing meeting, during the EARLI Conference in Amsterdam, it was proposed to discuss our Mission Statement.

We report it here for your evaluation and comments:

“SIG Writing aims at providing a forum for exchange of ideas about writing and promoting research collaboration between writing researchers from different countries as well as from different disciplines, such as education, psychology, linguistics, cognitive science, computer science, literary studies and rhetoric. Examples of topics we deal with are:

- the cognitive, social and developmental processes involved in writing
- the functions of writing in different social and institutional contexts
- the design of writing instruction in various educational settings

Our activities include writing-related publications, conferences and information facilities…”

The Journal of Writing Research announces the establishment of the John R. Hayes Award for excellence in writing research.
The award, aimed at recognizing outstanding quantitative or qualitative empirical research in writing, will be awarded biennially to an author or authors of an article published in the Journal of Writing Research.

The award is generously funded by John R. Hayes himself. Professor Hayes (Carnegie Mellon, Pittsburgh) is one of the most influential writing researchers since 1980, and a pioneer in the study of the cognitive writing processes.

The winner of the John R. Hayes Award will be selected by a committee appointed and chaired by a representation of the editors, in 2010 by Luuk Van Waes and Gert Rijlaarsdam.
Articles will be evaluated for quality of empirical scholarship. Winners will be announced in the journal and recognized at the biennial Earli SIG Writing Conference in Heidelberg 2010.

Recipients of the award will receive a custom-designed object and $1000. All articles published before August 2010 will be eligible for the first award.

COST – European Cooperation in the field of Scientific and Technical Research – is one of the longest-running European institutions supporting cooperation among scientists and researchers across Europe. COST is also the first and widest European intergovernmental network for coordination of nationally funded research activities.

The “European Research Network on Learning to Write Effectively” -ERN-LWE was founded in 2008 and will be operative until 2012.

The main objective of the Action (Chair: Denis Alamargot and Vice-Chair: Asa Wengelin) is to improve the understanding of how written production is mastered and how its learning and use can be optimised for all European citizens, especially school children and working adults.

A call for candidature, the exact dates and the detailed program will be sent in January 2010.

The training courses will be based on the advances of the COST Action “ERN-LWE”, particularly the strength lines and outcomes of the network working groups. Topics are:
- Early acquisition of writing skills;
- Improvements in written communication;
- Design of written documents;
- Technological advances in writing tools.

The COST Action “ERN-LWE” will offer 20 fellowships (up to 500 Euros) to support the travel and accommodation expenses of 20 junior researchers.
